VNG/ENG (Electronystagmography/Videonystagmography)

INSTRUCTIONS:

Please do not eat for three hours before the ENG/VNG test and keep liquids to a minimum. **IF YOU ARE DIABETIC, EAT A LIGHT MEAL AND DO NOT SKIP ANY MEALS.** For 24 hours prior to your appointment, refrain from taking sedatives, tranquilizers, sleeping pills, anti-depressants, pain, cold or allergy medication, drugs for nausea or dizziness and alcoholic beverages as they may adversely affect the test results. If you are on any medications for heart, blood pressure, thyroid, cholesterol, diabetes or epilepsy, continue these as usual. Please refrain from applying moisturizer or make up to your face before your test. **Due to the fact that some patients may experience prolonged dizziness or nausea after the test is completed, it is recommended that you have someone drive you home after the test if possible.** Please check in at least 10 minutes early.

Hearing aids are our strength and providing a high quality of patient care is our number one priority. We follow strict guidelines set out by the licensing body of Audiologists to prescribe hearing aids as needed. We work with all manufacturers and have a standard follow up program to ensure our patients are satisfied and can hear optimally.
